

K-love is so important to me! I'm a teenager who enjoys listening to the radio all the time! K-love is so awesome it really is a great radio station. I love that fact they play up to beat teenage christian type music. I don't like listening to the older stuff on other christian stations, but K-love plays the best. All my friends love listening to it with me in the car because there are no commercials and its up beat and we can dance to the music. I believe K-love is a public interest because it brings great comfort to those who need it and it inspires. It really is a family friendly station and I believe it is just what people are looking for. So please keep K-love on the radio. Thanks for your time and God Bless You!
